

Hayward Tandem Systems are the Sensible Solution for Semi-Commercial Installations

Tandem installations allow for easier filtration system placement in tight equipment rooms. They also allow for the servicing of individual components without taking the total filtration system off-line.

Tandem of 4 each S360T2

Public pool operators benefit because Hayward tandem systems offer a lower installed cost compared to traditional single pump/filter commercial systems.

Hayward tandem configurations are specified in the Hayward Tandem Guide which can be downloaded from <http://haywardimg.pomona.poolproducts.com>

Choose Hayward's TriStar™ for Top Performance and Features

Hayward's TriStar™ has the latest advances in heavy duty, high performance pump technology.

Exclusive features include a Tri-Lock lid for easy lid removal without tools, extra strong motor mounting bolts that cannot become damaged on over tightening, an advanced impeller design to assure no loss of impellers during reverse flow situations.

TriStar™ offers the most advanced pump features designed with performance and value from the world leader - Hayward Pool Products.

Hayward Versatile HCC 2000 Controllers

The HCC2000 Controller now comes with three options to meet different pool requirements.

For large size commercial applications the base HCC 2000 can be used with any famous brand of high capacity dosing pumps.

The HCC 2000 Complete Package (HCC2000-CP) comes with on-board Hayward peristaltic pumps that provides up to 31 gallons per day (5 l/h).

For in-between pool sizes, choose the hi-flow version of CP which has a greater output Hayward peristaltic pump that provides a dosing capacity of 113 gallons per day (18 l/h).

ProHayward PAR56 LED Lamp Now Available

ProHayward is pleased to announce a 15W, 252 LED lamp in both RGB and white options.

The lamp body is manufactured of ABS and the lens is of polycarbonate sonic welded to assure leak proof design.

The 252 LED's offer bright lighting with long term performance. For the RGB version, color changing is through the on/off switch and the white light is suitable for commercial installations preferring traditional lighting.

Easy installation results in dramatic lighting effects and reliable performance with energy savings.

Contact Hayward/IMG Customer Service Department for further details.

ProHayward Transformers Available for Immediate Shipment

12V/300W ProHayward
Transformer

ProHayward low voltage swimming pool transformers are the preferred transformer around the world.

CE listed ProHayward transformers are designed to provide safe 12 volt electrical supply to underwater lights and low voltage fixtures of all types.

Advanced circuit protection resets automatically. The weatherproof housing features a separate wiring compartment for the fully encapsulated high and low voltage circuits.

Available in 300 & 600W as well as 12, 13 & 14V configurations.

Saline C™ 6.0 Commercial Salt Chlorine Generator

Hayward Commercial Pool unveils Saline C™ 6.0, NSF certified commercial salt chlorine generator, designed to produce up to 6 lbs. of chlorine per day.

It features a compact design in a single clear vessel with a single heavy duty power supply, eliminating the need for daisy chaining multiple cells. This more-efficient design lowers installation costs and consumes less space.

Designed to meet the needs of commercial applications that benefit by the operation of a salt-chlorinated pool and lowering sanitization costs by up to 60%.

For more information on the products featured in Newsplash, please contact Hayward/IMG at fax: 909.444.0327, email: img@haywardnet.com or go to www.Haywardpool.com
