

Low Voltage Transformer Now Available for 120 Volt Installations

Recently added to the ProHayward Low Voltage Transformer line-up is a Hayward

120V version with multi-tap choices for proper low voltage electrical supply to underwater lights and even outdoor low-voltage lighting.

The 120V transformer is fitted with a convenient on/off power switch as well as an electrical cord for installation ease.

The transformer compliments the popular ProHayward line of 220V transformers which have become the transformer of choice of pool professionals around the world.

Contact Hayward/IMG Customer Service staff for further details on the newly introduced Hayward low voltage transformer.

Factory Automation Assures Consistent Quality and Value

Hayward Pool Products investments in equipment and automation results in products of superior quality and manufacturing consistency.

*1500 Ton Automated
Injection Molding Machine*

An example of Hayward's significant investments is the equipment to manufacture DE and cartridge filter tanks. These products are manufactured on an automatic 1500 ton injection molding machine fitted with robot automation and a continual passivating system to eliminate human error and product

variance in the manufacturing process.

Similar investments in the manufacturing process throughout Hayward's five factories in the United States and four overseas locations assures consistent product output built to the highest standards.

With more than 50 years experience serving the vast and demanding USA pool markets as well as the ever growing overseas markets.

*Automation Process of
DE and Cartridge Filter Tanks*

It is Hayward's attention to the manufacturing processes at Hayward's manufacturing locations around the world that has resulted in Hayward being the brand of choice worldwide.

Max-Flo™ High Performance Pump Series for Value and Performance

The Max-Flo™ is a high technology pump model that combines performance and value with durable corrosion-proof construction.

Designed for pools of all types and sizes, Max-Flo has a unique design that incorporates swing-aside knobs for easy access to the strainer compartment and debris basket.

Max-Flo also features a "see-thru" strainer cover, a heavy duty high-performance motor and "service-ease" design for extra convenience and easier operation.

SwimPro™ by Hayward® is the Price Fighting Choice

Hayward recently introduced the value priced SwimPro high rate sand filter range.

SwimPro is manufactured in the United States of rugged, durable, color fast, molded polymeric material to assure long life.

SwimPro filters include a US made SP714 multiport valve and an innovative under drain that assures balanced flow to maximize the filter's backwash performance.

Choose SwimPro by Hayward for affordable, dependable and efficient pool filtration.

ProHayward PAR56 LED Lamp Now Available

ProHayward is pleased to announce a 15W, 252 LED lamp in both RGB and white options.

The lamp body is manufactured of ABS and the lens is of polycarbonate sonic welded to assure leak proof design.

The 252 LED's offer bright lighting with long term

performance. For the RGB version, color changing is through the on/off switch and the white light is suitable for commercial installations preferring traditional lighting.

Easy installation results in dramatic lighting effects and reliable performance with energy savings. These lamps are in-stock and ready to ship with orders.

Contact Hayward/IMG Customer Service for further details or including this product your next shipment.
