

AquaRite® 900 Offers Extended Life Cell and Added Chlorine Output

Hayward's AquaRite 900 salt chlorine generator features an extended life TurboCell that produces 25% more chlorine over its lifetime compared to Hayward's bestselling T-Cell-15.

AquaRite 900 provides automatic, consistent sanitization that eliminates harsh chlorine odors and works with pools up to 40,000 gallons.

The AquaRite 900 is part of Hayward's newly introduced Expert Line and cannot be found on the internet or in big-box stores.

Hayward's SwimClear® Single Element Cartridge Filters Offer Added Service Ease

Hayward's SwimClear single element cartridge filters capture more dirt for superior water clarity without the need of supplemental media or backwashing. In addition, SwimClear has the industry's lowest head loss resulting in reduced operational energy costs.

SwimClear filters are the easiest single element filters to service due to the Easy-Lok ring design, comfort grip handles, recessed pressure gauge and air relief. In addition the low lift height gives added convenience to the service technician.

SwimClear is part of Hayward's family of premium filtration products.

F-300 Series NSF Listed Flowmeters For Accurate Flow Measurement

Now NSF listed, Blue-White's classic F-300 Series Flowmeter has been re-engineered to make it even more accurate and reduce space requirements for installation.

The F-300 features include excellent accuracy, aerodynamic tube design for smooth fluid flow into and through the meter, and float stability with four capture points. There's no float bounce.

The new efficient design means users only need half of the previous requirement of straight pipe length, making it convenient for tight installations.

ProHayward PAR56 LED Lamp Now Available

ProHayward is pleased to announce a 15W, 252 LED lamp in both RGB and white options.

The lamp body is manufactured of ABS and the lens is of polycarbonate sonic welded to assure leak proof design.

The 252 LED's offer bright lighting with long term performance. For the RGB version, color changing is through the on/off switch and the white light is suitable for commercial installations preferring traditional lighting.

Easy installation results in dramatic lighting effects and reliable performance with energy savings.

Contact Hayward/IMG Customer Service for further details.

Value Alternative for Quality Continuous Use Air Blowers

AIRTECH commercial blowers are ideally suited for spas, clubs or luxury villas which put a high demand on spa or pool aeration.

AIRTECH commercial blowers provide continuous operation that is impossible for a mushroom style blower. Built with rugged die cast aluminum construction and an outboard bearing, AIRTECH blowers run quieter and cooler than competing rotary blowers.

What's more, these blowers are value priced against other rotary blowers without compromising performance or reliability.

For public spa, pool and luxury pool applications, let AIRTECH blowers be your first choice in commercial blowers.

Hayward/IMG and our overseas customers have experienced emails intercepted by "hackers" that have changed the banking instructions for wire transfers under our Corporate email letterheads and staff names.

Be advised Hayward/IMG has not changed wire transfer instructions or banking details for more than 10 years.

If you receive any change from our normal wire instruction details consider this as fraudulent activity and re-confirm banking details with our Customer Service staff or Financial Department representatives.

Again, we have experienced emails being intercepted by "hackers" which are providing false banking details. Please confirm transfer details first if you note a change.

For more information on the products featured in Newsplash, please contact Hayward/IMG at fax: 909.444.0327, email: img@hayward.com or go to www.Haywardpool.com
