

Hayward TigerShark® Robotic Cleaner

Renowned for many years for its solidity and efficiency, the Hayward **TigerShark®** cleans the bottom, walls and waterline.

With its ASCL microprocessor (Adaptive Seek Control Logic), it calculates the shape and size of your pool to clean every spot efficiently.

The Hayward TigerShark® is fully automatic, with no need for an exterior bag or pipe.

Available in a Quick Clean (QC) version for full cleaning in less than 2 hours and with optional foam-brush for pools with tile finish.

An optional caddy cart makes handling easier.

ColorLogic® Bubbler – Elevated Visual Appeal

The **ColorLogic® Bubbler** creates a cascading column of water. Multiple nozzles offer a wide variety of water heights and widths to match any pool environment. The plume can be adjusted to achieve the desired effect.

Blends with the environment with its small footprint, interchangeable color trim options and a two part design that incorporates a plaster ring for ability to adjust angle or height to match surface of pool.

Illuminate the ColorLogic Bubbler with ColorLogic® or CrystaLogic® 320 and 160 lighting for a wide variety of options.

HCP 3600 Series Pump – Value Option

The **HCP 3600 Series** pump from Hayward Commercial Aquatics ships from the Hayward factory in Spain.

This powerful, light weight pump is made from glass-fibre filled engineered thermoplastic polymer and is suitable for salt and sea water applications. The included 75mm unions make it easy to install. The Twist Lock lid with transparent cover makes maintenance convenient.

The pump has a TEFC motor with three phase options that are IE3 compliant.

The pump is available in rated capacities of 2.5Hp, 3Hp and 3.5Hp suitable for larger pools, water features and spas. Currently available in 50Hz only.

Hayward Variable Speed Heat Pump

The Hayward **HeatPro® VS** heat pump is an inverter type heat pump that is designed to run smoother and last longer. The variable-speed technology brings benefits like increased energy efficiency and super-quiet operation.

The updated intuitive control panel provides a seamless user experience via touchscreen digital display.

A titanium heat exchanger operates powerfully and efficiently, and the defrost function manages evaporator coil frosting for low ambient temperature operation.

The HeatPro® VS Heat Pump is AHRI certified by independent lab testing that confirms product performance and value.

Hayward AquaRite® 100 Salt Chlorinator

The **AquaRite® 100** salt chlorination system offers nearly all of the incredible benefits as the rest of the world's best-selling AquaRite family—ultra-soft water, time-saving convenience and simple installation—at a more accessible price; and is ideal for meeting the needs of smaller in-ground and above ground pools.

The **AquaRite® 100** salt chlorination systems Produces up to 20% more chlorine than other similar systems on the market. It's easy to install in existing pools. The system operates at flow rates as low as 20-25 GPM and over a wide salt range: 1500 and 4500 PPM.

The weatherproof control unit ensures optimal performance in all conditions.

The specially designed clear vessel and easy-to-remove cartridge allow for easy servicing.

Color^{2x} TesTabs[®] PRO 7 Pool & Spa Photometer

The **PRO7 Pool & Spa Photometer** from LaMotte® directly measures six main pool & spa parameters using stable tablet reagents.

Instrument grade TesTabs® tablets packaged in blister-style foil eliminates the need to manually tear open a foil packet and carefully dispense the tablet

The waterproof, Bluetooth® handheld pool and spa professional user-friendly photometer, testing reagents and photo-diagrammatic instructions are packaged in a convenient carrying case.

The PRO7 Pool & Spa Photometer Measures free chlorine, total chlorine, pH, total alkalinity, calcium hardness and cyanuric acid.
