

Since 1964 Hayward Pool Products has been the leading pool equipment manufacturer for residential pools in the world. Our wide product range includes pumps, filters, lights, cleaners, heaters, chlorine generators, accessories and white goods.

that are leaders in their respective market segments and that can complement Hayward's current offerings. The Hayward strategy is not just about getting big but rather about bringing product innovations and business opportunities to our Hayward partners around the globe. With advanced products we want to help make pool ownership a pleasure and not a burden by allowing for more time to enjoy the pool than caring for it.

Industry leadership has also allowed Hayward to develop a global distribution network that is second to none. We trust 2015 will be another record breaking year for both Hayward Pool Products and our importers, distributors and industry practitioners around globe.

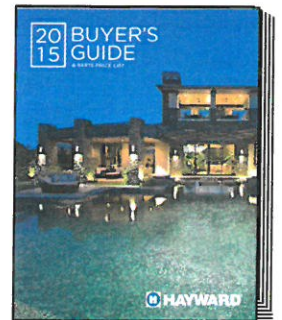

Thank for you for your great support of Hayward Pool Products and from all of us at Hayward/IMG we wish you all the best for 2015.

As a globally growing market leader, headquartered in the state of New Jersey, Hayward is a proud "Made in USA" company with multiple manufacturing locations in the United States where more than 80% of our products are produced. Additional manufacturing resources are located in Canada, France, China and Australia to serve those diverse markets and supplement our USA manufacturing.

Hayward is also growing through strategic acquisitions of companies

Hayward Summit Heat Pumps Provide Perfect Water Temperature

Hayward high performance heat pumps quietly and economically maintain your ideal water temperature at all times.

Available in both 50hz and 60hz versions, Hayward heat pumps incorporate a titanium counter flow heat exchanger for unmatched performance under the harshest condition.

Advanced features like an innovative Ultra Gold corrosion-resistant evaporator, heavy duty super quiet scroll compressor, molded UV-resistant body panels and stainless steel hardware means that Hayward heat pumps will perform year after year, season after season.

Hayward heat pumps give you comfort and efficiency. It is a perfect addition to your Totally Hayward System.

New! Cleans Pool Floor and Walls with Computer Efficiency

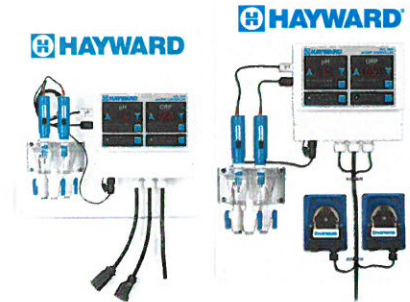

SharkVAC XL is the newest addition to Hayward's robotic line-up. SharkVAC XL combines proven TigerShark technology and high quality components into a sleek, low-profile design.

With easy top-access filter cartridges as a distinctive feature the SharkVAC XL is also a floor AND wall cleaner. Add advanced technology allowing SharkVAC to calculate the size of the pool and program itself for the most time and energy efficient cleaning path.

Offer advanced cleaning robotics from the #1 equipment supplier, Hayward Pool Products, with the new SharkVAC XL.

Hayward Versatile HCC 2000 Controllers

The HCC2000 Controller now comes with three options to meet different pool requirements.

For large size commercial applications the base HCC 2000 can be used with any famous brand of high capacity dosing pumps.

The HCC 2000 Complete Package (HCC2000-CP) comes with on-board Hayward peristaltic pumps that provides up to 31 gallons per day (5 l/h).

For in-between pool sizes, choose the hi-flow version of CP which has a greater output Hayward peristaltic pump that provides a dosing capacity of 113 gallons per day (18 l/h).

HCC 2000 is part of Hayward's product solutions to modern pool management.
