

Universal CrystaLogic™ White LED

Hayward
Commercial
Pool offers
a brilliant,
white
light
option
for

public pools that can
assure maintenance free
and dramatic pool lighting.

The optimized LED and
optic design delivers
extraordinary lumen per
watt energy efficiency to
lower long lifetime
operational cost.

CrystaLogic's 300W pool
white light equivalent
delivers the same lumens
as the leading competitor's
claimed 500W light.
CrystaLogic delivers
unmatched brightness, and
offers the owner/operator
the chance to drastically
cut operational cost while
delivering the highest
performance lighting.

Hayward's CrystaLogic
white light is a great
choice as part of a Totally
Hayward Pool offering.

New 500,000 BTU Universal H Series Gas Heater

Hayward introduced a new
500,000 BTU Universal
H-Series gas heater in 60
cycle.

This heater offers the fastest
speed to heat performance
combined with all the
advantages of the Universal
H-Series heater. The heater
offers hydraulic efficiency,
reliability and the standard
Cupro Nickel heat exchanger
to assure durability.

Available in propane and
natural gas compatibility, the
Universal H-Series delivers
the highest heat technology,
ultimate reliability, great
value, excellent performance
and installation versatility
that makes the Hayward
Universal heaters ideal for
years of luxurious swimming
and enjoyment.

Choose Hayward's Tri-Star™ for Top Performance and Features

Hayward's TriStar™
has the latest advances
in heavy duty, high
performance pump
technology.

Exclusive features
include a Tri-Lock lid for
easy lid removal without
tools, extra strong motor
mounting bolts that cannot
become damaged on over
tightening and an
advanced impeller design
to assure no loss of
impellers during reverse
flow situations.

TriStar™ offers the
most advanced pump
features designed with
performance and value
from the world leader -
Hayward Pool Products.

Saline C™ 6.0 Commercial Salt Chlorine Generator

Hayward Commercial Pool unveils Saline C™ 6.0, NSF certified commercial salt chlorine generator, designed to produce up to 6 lbs. of chlorine per day.

It features a compact design in a single clear vessel with a single heavy duty power supply, eliminating the need for daisy chaining multiple cells. This more-efficient design lowers installation costs and consumes less space.

Designed to meet the needs of commercial applications that benefit by the operation of a salt-chlorinated pool and lowering sanitization costs by up to 60%.

Coates Heaters for Efficient Electric Heating of Pools and Spas

Coates compact electric heaters are ideally suited for residential and commercial pools and spas.

Coates heaters feature a built-in flow switch to prevent operation when there is no water flow. Their stainless steel tanks assure long life under the harshest water conditions.

Coates heaters are available in standard sizes of 12KW to 72KW. Coates standard heaters can also be used in tandem configurations up to 144KW. Larger sizes are available as custom manufactured units.

All heaters are fitted with easy to replace heating elements for serviceability and convenience.

Jet-Air Hydrotherapy Fitting for Outstanding Jet Action

The Jet-Air Deluxe Hydrotherapy fitting offers outstanding performance for air/water jet action.

Intended for "in the wall" installation and utilizing a versatile air vent system to draw air from the deck or pool wall.

Operation of the Jet-Air is simple by turning the air supply tube adjustment cap allowing a larger air opening for increased air volume into the water jet stream.

The Jet-Air fitting adds invigorating spa therapy action for an extra enjoyable pool experience in private or public pools.
