

## New ColorLogic® Feature Light Offers Big Performance in a Small Package

Hayward announced a new, versatile light that delivers the biggest, boldest color with easy-to-install feature in a 1/2" PVC conduit.

The ColorLogic® 80 and 40 offers a sophisticated and dramatic way to accent water and landscape features. Hayward's ColorLogic® 80 & 40 are available in two Lumen outputs with 10 fixed colors and 7 dynamic color-changing shows to deliver rich, colorful detail.

Easy to install ColorLogic® 80 & 40 LED lights sync seamlessly with all lights in Hayward's low-voltage ColorLogic® family for a perfectly coordinated backyard oasis.

## Ideal Water Temperature in Any Climate

Hayward's high performance, energy efficient HeatPro® Heat/Cool heat pumps quietly and economically maintain the ideal water temperature, even in the warmest climates.

An Ultra Gold™ corrosion-resistant evaporator fin provides extreme durability especially in harsh and corrosive coastal environments.

HeatPro® heat pumps are lightweight, compact and easy to install and service, making them ideal for new pools or enhancing existing pools so they may be used all summer long.

## VL 210 Series™ Sand Filter Systems

VL 210 Series sand systems provide the value and reliability expected from the world's leading provider of pool equipment.

The 1.5 HP pump is performance matched to the large 21" filter in an easy to install unitized base.

A VariFlo™ control valve is included and the system is built with a quiet pump and a spherical sand filter for trouble-free operation.

Contact Hayward IMG Customer Service for further details.

## Low Voltage Transformer Now Available for 120 Volt Installations

Recently added to the ProHayward Low Voltage Transformer line-up is a Hayward 120V version with multi-tap choices for proper low voltage electrical supply to underwater lights and even outdoor low-voltage lighting.

The 120V transformer is fitted with a convenient on/off power switch as well as an electrical cord for installation ease.

The transformer compliments the popular ProHayward line of 220V transformers which have become the transformer of choice of pool professionals around the world.

Contact Hayward/IMG Customer Service staff for further details on the newly introduced Hayward low voltage transformer.

## An Affordable Choice In Pool Automation

OnCommand<sup>®</sup> is the most affordable way to automate essential pool and spa functions for new and aftermarket applications.

OnCommand<sup>®</sup> is a fully featured control for an entry level price which is easy to use and program. The unit features a durable plastic enclosure with a large accessible wiring compartment.

Works with Hayward's Aqua Connect<sup>®</sup> remote pool management platform with apps for iPhone, iPad and Android.

OnCommand<sup>®</sup> easily automates up to 4 features, 3 valves, 1 heater and solar controls.

Now affordable and simple pool operation and control is available with Hayward's innovative OnCommand<sup>®</sup>

## SwimPro<sup>®</sup> Pump is the Price Fighter Offering Value and Performance

Hayward is pleased to introduce its value pump offering under SwimPro<sup>®</sup> branding.

SwimPro<sup>®</sup> is available in 50hz and 60hz and is an effective challenge to low cost pump competitors. The pump is available in 1/2 to 1 1/2 horse powers and is an ideal choice when dependable performance and value is required.

Manufactured entirely at Hayward's Wuxi, China factory to Hayward's stringent standards for quality and performance.

SwimPro<sup>®</sup> offers a better choice than non-branded alternatives with inconsistent performance and durability.
