

## New! Bobbin-Wound Commercial Filter

With the acquisition of Kripsol and Fiberpool, Hayward is proud to introduce new Bobbin-Wound Commercial Filters.

The bobbin-wound filters are Hayward branded and feature a flexible body that achieves the best resistance against high pressure with less wall thickness.

The filters come standard with a top oval manhole with knob and bridge clamp, air relief valve and water drain. Other options include accessories and filter configurations of many sizes, pressure ratings and sand depth.

These filters are manufactured in Spain with shipment from the Hayward owned Kripsol factory outside of Madrid. Contact Hayward IMG for assistance with these new filters.

## HCP 3000 Pump Series Unrivalled Power Unmatched Efficiency

The HCP 3000 Series pumps are engineered for heavy-duty durability and flow rates for the 3" union class.

A wide range of power options, including single or variable speed, means you can provide the optimum solution for virtually any pool, delivering maximum performance and uncompromised efficiency.

Available in 3HP to 7HP in 50/60HZ the Hayward 3000 Series pump is a perfect match to trusted and proven Hayward tandem systems. The 3000 Series is manufactured in the United States at Hayward's main manufacturing facility in North Carolina.

## Saline C™ 6.0 Commercial Salt Chlorine Generator

Hayward Commercial Pool offer the Saline C™ 6.0, NSF certified commercial salt chlorine generator, designed to produce up to 6 lbs. of chlorine per day.

It features a compact design in a single clear vessel with a heavy duty power supply, eliminating the need for daisy chaining multiple cells. This more-efficient design lowers installation costs and consumes less space.

Designed to meet the needs of commercial applications that benefit by the operation of a salt-chlorinated pool and lowering sanitization costs by up to 60%.

## Value Alternative for Quality Continuous Use Air Blowers

AIRTECH commercial blowers are ideally suited for spas, clubs or luxury villas which put a high demand on spa or pool aeration.

AIRTECH commercial blowers provide continuous operation that is impossible for a mushroom style blower. Built with rugged die cast aluminum construction and an outboard bearing, AIRTECH blowers run quieter and cooler than competing rotary blowers.

What's more, these blowers are value priced against other rotary blowers without compromising performance or reliability.

For public spa, pool and luxury pool applications, let AIRTECH blowers be your first choice in commercial, continuous use blowers.

## Hayward Chemical Feeders Provide for Accurate and Carefree Chemical Feeding

Efficient and maintenance-free, Hayward automatic chemical feeders are available for residential and commercial pools alike.

For use with trichlor or bromine only, these easy to use, Hayward automatic chlorinators and brominators are ideal for new or existing pools and spas.

Featuring the Easy-Lok™ threaded cover with finger release catch to provide extra security. Sizes starting at 4.2lb capacity and up to 30lbs are ideal for both residential and commercial applications.

The Hayward chlorinators operate automatically during filtration and have a user friendly control valve to accurately adjust the rate of feed.

## Very Affordable ProHayward 2" Utility Basket Strainer

Manufactured of polypropylene the ProHayward utility basket strainer removes damaging particulate matter from piping systems to protect in-line components.

The ProHayward basket strainer features a "no tool" lid, 2" NPT ports and a large, easy to remove basket. The heavy duty wall thickness of the strainer provides for good durability and long life for this practical utility basket strainer.

Contact Hayward/IMG Customer Service for further details on this affordable utility basket strainer.
